PROFESSIONAL SUMMARY

Motivated and enthusiastic Computer Science Engineering student with a strong interest in **Full Stack Development** and **Artificial Intelligence**. Currently building expertise in Python, JavaScript, SQL, HTML, and CSS. Passionate about solving real-world problems through innovative software solutions, with hands-on experience in academic projects, internships, and hackathons. A quick learner and problem solver seeking opportunities.

EDUCATION

B.E. Computer Science and Engineering • DMI Engineering College	2024 – 2028 CGPA: 9.2 (till 4th sem)
Higher Secondary Certificate (HSC) • Pearl Matriculation Higher Secondary School	2023 – 2024 85%
Secondary School Leaving Certificate (SSLC) • St. Anne's Matriculation School	2021 – 2022 94%

TECHNICAL SKILLS

Programming Languages:	Python, C, Java (basics)
Web Technologies:	HTML, CSS, JavaScript
Database:	MongoDB (basics), SQL
Core Areas:	Full stack development, web development

SOFT SKILLS

Leadership, Communication, Teamwork, Quick Learner, Analytical Thinking

INTERNSHIP EXPERIENCE

Data Analyst Intern — JCLICK Solutions	Internship
Python Full Stack Developer Intern — SMARK Solutions	Internship
Staff Engineer Role (Intern) — Agile Tribers	1 Month

PROJECTS

- **Smart Vehicle Parking System** – IoT and web-enabled automated parking slot management & monitoring system. (Awarded 2nd Prize in Ideathon)
- **Smart Checklist** – Dynamic digital task management and productivity checklist with responsive real-time tracking.
- **Expense Tracker** – Personal financial tracking web application for categorizing daily expenses and budget insights.
- **Kaivinai AI** – Digital platform for empowering traditional artisans through technology and AI craft promotion.
- **Cycora** – AI-powered menstrual health assistant providing personalized cycle predictions, health guidance, and wellness tips.
- **Bankora X** – Multi-bank appointment booking and queue management platform streamlining customer branch scheduling.

ACHIEVEMENTS

- **2nd Prize - Ideathon (Smart Parking System)**
Secured second place for the innovative IoT and web-based smart parking system prototype.
 - **3rd Prize - Technical Paper Presentation**
Awarded 3rd place for well-researched technical paper, conceptual clarity, and presentation delivery.
 - **Winner - Voice of DMI Competition**
First prize winner in the college-wide public speaking and communication competition.
 - **Participated in Buildathon 2026**
Organised by TechVerse Solutions; rapid software prototyping and engineering under hackathon timelines.
 - **Participated in NexBuildOn Hack 2026**
Collaborated on problem-solving challenge tracks with a multi-disciplinary developer team.
 - **Participated in SheBuilds Chennai X CCCL Hack**
Women-in-tech hackathon focusing on collaborative software engineering and social impact solutions.
-

CERTIFICATIONS

- **Python Programming • Swayam NPTEL**
Comprehensive Python programming, data structures, and algorithmic logic.
 - **Data Analytics (CCP) • Novi Tech Certificate Course in Python**
Hands-on data analytics, exploratory data processing, and visualization in Python.
 - **MongoDB Basics for Students • MongoDB University**
Document model, MongoDB Atlas, schema design, and CRUD operations.
 - **Python Course • CSC**
Foundational and object-oriented Python software development.
 - **CS50's Introduction to Computer Science (CS50x) • Offered by Harvard University**
Rigorous computer science study covering C, algorithms, memory, Python, SQL, and web technologies (Currently Pursuing).
-

DECLARATION

I hereby declare that the details furnished above are true and correct to the best of my knowledge and belief.
